

CUSTOMERS OF WAUPUN PUBLIC UTILITIES

Waupun Public Utilities has filed an application with the Public Service Commission of Wisconsin (PSC) to adjust electric rates. The adjustment has been requested in order to cover inflationary costs associated with utility operations since the last electric rate case in September 2016. The requested adjustment will support the necessary costs associated with maintaining the reliability of the electric distribution system.

The utility is requesting an overall increase above the electric utility's present revenues of 3.73%, or \$435,379. This request is detailed in Waupun's electric rate application submitted to the PSCW on June 16, 2023. After review, Commission staff proposed a revised increase in rates of \$364,975 or 3.14%. The actual change to individual customers will vary with electricity usage, customer class of service and the ultimate rates authorized by the Commission. If the application is approved by the PSCW, per staff recommendation, the average residential customer using 699 kilowatt-hours (kWh) of electricity per month will see a monthly increase of approximately \$2.05, or 2.32%.

An audiovisual hearing on the application has been scheduled for Wednesday, December 13, 2023, at 10:00 a.m. (CDT). This virtual hearing has no physical location at PSCW's office in Madison, WI. Members of the public may attend by internet or telephone or listen to the live broadcast on the PSCW's website at <http://psc.wi.gov> under the "PSC Live Broadcast" button.
